EXPERIENCE

Snapp! - *Software Engineer*

Oct 2019 - PRESENT

- **projects:** Snapp base-API (Snapp core), Credit Wallet, Snapp Wallet, AP Wallet, Direct-Debit Payment, IPG Payment, BackOffice
- Develop and design new payment methods for Snapp! Groups (Cab, Food, Market, Doctor, …)
- Maintenance of old projects, including base-API services and back-office
- Function and performance test design and implementation
- Deployment services on RedHat Openshift, and monitoring
- Interview and hiring

Technologies and methods: Java 11, Golang, PHP, Hibernate, Spring (Cloud, Boot, Flux), Laravel, Mysql, Redis, RabbitMQ, Liquibase, Microservice Architecture, Jhipster, EFK, Docker, RedHat Openshift, Gitlab, Gatling, Grafana, Prometheus

Informatics Services Corporation - *Java Full-stack Developer*

Jan 2019 - Oct 2019

- **Project:** Chakavak (Interbank cheque settlement switch) for Central Bank Of Iran
- Develop, design, and test new services for new cheque format
- Rewrite part of the main services that improved system performance by 10%
- Function and performance test design and implementation
- Organized knowledge sharing sessions

Technologies and methods: Java 7 and 8, Hibernate, JSF, JEE, EJB, Oracle, SVN, IBM Websphere MQ

Tosan - *Java Developer*

Aug 2016 - Jan 2019

- **Projects:** CMS(Card Management Service), EMV Cards
- Service Implementation and Maintenance
- Fixed some performance issue and rewrite the core business of cms project
- Organized knowledge sharing sessions

Technologies and methods: Java 7, Hibernate, Spring (Ioc, Aop), Oracle, Pl/Sql, SVN, SOA Architecture

SKILLS

- **Programming Languages**
  - Java: Expert
  - PHP: Advance
  - Golang: Elementary
  - Kotlin: Elementary

- **Build Tools and CI/CD**
  - Maven
  - Gradle
  - Version Control (Git, SVN)
  - Docker
  - Kubernetes
  - Red Hat Openshift (OKD)
  - Jenkins
  - Gitlab (CI/CD)
  - AWS: Beginner

- **Database**
  - Mysql (Maria DB)
  - Mongo
  - Oracle (PL/Sql)
  - Liquibase
  - Redis (Cache Provider)

- **Frameworks**
  - Spring Framework (Boot, Cloud, Flux, Data, Batch, Ioc, Aop)
  - Hibernate (JPA)
  - Laravel

- **Software Concepts**
  - Object Oriented Programming
  - Design Patterns
  - Microservice Architecture
  - Domain Driven Design
  - Test Driven Design
  - Reactive Programming
  - Agile Methodology (Scrum)

- **Testing \ QA**
  - Junit
  - Gatling (Load and Performance Test)
  - Sonar (Code Quality Analyze)

EDUCATION

Hamedan University Of Technology , Hamedan - *B.sc*

2011 - 2015

B.sc In Computer Hardware Engineering

LICENCES AND CERTIFICATIONS

- **DevOps Engineer-Git & Jenkins**
  - Issuing authority: Fanavaran Anisa
  - Issued date: Nov 2020
  - Credential ID: ILH249909097829

- **DevOps Engineer-Docker**
  - Issuing authority: Fanavaran Anisa
  - Issued date: Aug 2020
  - Credential ID: ILH219904597099
